Subject Index

Abscess
Experimental anaerobic brain abscess. Computerized tomographic and neuropathological correlations, 1148
Achondroplasia
Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Acidosis
Cerebral circulation and metabolism, 883
Experimental brain injury: successful therapy with the weak base, tromethamine. With an overview of CNS acidosis, 961
Acoustical marker
Cottonoid as an acoustical marker for intraoperative ultrasound scanning. Technical note, 438
Actinomycosis
Intracranial actinomycoma with osteomyelitis simulating meningioma. Case report, 204
Adolescent
Subarachnoid hemorrhage in childhood and adolescence, 1163
Air embolism
Cerebral air embolism occurring at angiography and diagnosed by computerized tomography. Case report, 177
Protective effect of lidocaine in acute cerebral ischemia induced by air embolism, 257
Some inquiries in neuroanesthesia and neurological supportive care, 673
Albumin
Intracranial and systemic effects of osmotic and oncotic therapy in experimental cerebral edema, 481
Alimentation
Changes in food intake with electrical stimulation of the ventromedial hypothalamus in dogs, 1253
The metabolic response to severe head injury, 687
Nutrition and the neurosurgical patient, 219
Allograft-sensitized host
Survival of nerve allografts in sensitized rats treated with cyclosporin A, 828
American Association of Neurological Surgeons
Scientific Program: Annual Meeting of The American Association of Neurological Surgeons, April 8–12, 1984, 663
Amine
Aminergic innervation of cerebral veins. Histochemical comparison with extracranial veins, 140
Aminergic fibers
Aminergic innervation of cerebral veins. Histochemical comparison with extracranial veins, 140
Amyotrophy
Diabetic polyradiculopathy simulating lumbar disc disease. Report of four cases, 183
Anastomosis
Carotid to distal vertebral artery bypass for vertebrobasilar ischemia. Case report, 187
Changes in intracranial stenotic lesions after extracranial-intracranial bypass surgery, 771
Cortical artery aneurysm formation after extracranial to intracranial bypass surgery. Case report, 636
Indications for surgical intervention in middle cerebral artery obstruction, 296
Lasers in neurological surgery. Letters, 872
Microvascular patch technique with and without Silastic T-tube bypass, 287
Anatomical study
Anomalies of the posterior communicating artery and their potential clinical significance, 572
Microsurgical anatomy of the recurrent artery of Heubner, 130
Microsurgical anatomy of the region of the tentorial incisura, 365
Anesthesia
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Comparison of sodium thiopental and methohexital for high-dose barbiturate anesthesia, 602
Effects of halothane and fentanyl anesthesia on resistance to reabsorption of CSF, 252
Failure of tetracaine to reverse spinal cord injury in the cat, 1269
Some inquiries in neuroanesthesia and neurological supportive care, 673
Aneurysm
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Age and the outcome from aneurysm surgery. Letters, 215
Anomalies of the posterior communicating artery and their potential clinical significance, 572
Anterior inferior cerebellar artery aneurysms. Letters, 1115
Bacterial aneurysms of the intracavernous carotid artery, 1236
Booster clips for giant and thick-based aneurysms, 751
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089
Causes of acute deterioration in patients with a ruptured intracranial aneurysm. A prospective study with serial CT scanning, 935
Cerebral arteriovenous malformations. Indications for and results of surgery, and the role of intravascular techniques, 14
Characteristics and use of ultra-long aneurysm clips, 145
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Cortical artery aneurysm formation after extracranial to intracranial bypass surgery. Case report, 636
CSF smooth-muscle constrictor activity associated with cerebral vasospasm and mortality in SAH patients, 927
Early aneurysm operation and outcome in two remote Scandinavian populations, 1160
Giant aneurysm arising from a single arteriovenous fistula in a child. Case report, 1085
Microsurgical anatomy of the recurrent artery of Heubner, 130
Neoplastic cerebral aneurysm from lung cancer. Case report, 640
Noninvasive detection of intracranial vascular lesions using an electronic stethoscope, 553
Outcome 1 year after SAH from cerebral aneurysm. Management morbidity, mortality, and functional status in 112 consecutive good-risk patients, 909
Perioperative use of somatosensory evoked responses in aneurysm surgery, 269
Postural fluctuation of hemifacial spasm. Case report, 190
Pulsating unilateral exophthalmos due to traumatic aneurysm of the intraorbital ophthalmic artery. Case report, 630
Significance of contrast enhancement in cranial computerized tomography after subarachnoid hemorrhage, 335

Subarachnoid hemorrhage from intracranial dissecting aneurysm, 325
Subarachnoid hemorrhage in childhood and adolescence, 1163
Transient neurological deficits secondary to saccular vertebrobasilar aneurysms. Report of two cases, 410
Vascular lesions due to transcranial stab wounds, 42
Vertebrobasilar occlusion therapy of giant aneurysms. Significance of angiographic morphology of the posterior communicating arteries, 560
Angiography
Adequacy of intravenous digital subtraction angiography. Letters, 1331
Cerebral air embolism occurring at angiography and diagnosed by computerized tomography. Case report, 177
Dural arteriovenous malformations of the spine. Clinical features and surgical results in 55 cases, 238
Somatosensory evoked potentials during spinal angiography and therapeutic transvascular embolization, 777
Spontaneous carotid-cavernous fistulas: clinical, radiological, and therapeutic considerations. Experience with 20 cases, 976
Vertebrobasilar occlusion therapy of giant aneurysms. Significance of angiographic morphology of the posterior communicating arteries, 560
Anterior cerebral artery
Microsurgical anatomy of the recurrent artery of Heubner, 130
Anterior cervical fusion
Vertebral trephine: a new instrument for anterior cervical fusion. Technical note, 1315
Anterior cervical surgery
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Anterior inferior cerebellar artery
Anterior inferior cerebellar artery aneurysms. Letters, 1115
Anterior spinal artery
Somatosensory evoked potentials during spinal angiography and therapeutic transvascular embolization, 777
Antibiotic therapy
Antibiotic prophylaxis in neurosurgery. A randomized controlled trial, 724
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Aortic occlusion
Percutaneous flexible bipolar epidural neuroelectrode for spinal cord stimulation. Technical note, 1317
Aqueductal stenosis
Endolymphatic hydrops and CSF pressure. Letters, 1332
Arabinose
Blood-brain barrier disruption in immature Fischer 344 rats, 743
Arachnoid cyst
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Spinal arachnoid cyst with unusual presentation. Case report, 613
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Arachnoid granulation
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Arachnoiditis
Tuberculous meningitis presenting as an obstructive myelopathy. Case report, 196
Argon laser
Lasers in neurological surgery. Letters, 872
Use of the argon surgical laser in neurosurgery, 523
Arteriovenous fistula
Cortical arteriovenous fistula associated with skull fracture. Case report, 192
Giant aneurysm arising from a single arteriovenous fistula in a child. Case report, 1085
Traumatic middle meningeal arteriovenous fistula caused by three-point skull fixation. Case report, 853
Vascular lesions due to transcranial stab wounds, 42
Arteriovenous malformation
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Arteriovenous malformations of the medial cerebral hemisphere and the limbic system, 23
Cerebral arteriovenous malformations. Indications for and results of surgery, and the role of intravascular techniques, 14
Dural arteriovenous malformation in the posterior fossa associated with intracerebellar hematoma. Case report, 1067
Dural arteriovenous malformations of the spine. Clinical features and surgical results in 55 cases, 238
Giant aneurysm arising from a single arteriovenous fistula in a child. Case report, 1085
The Nd:YAG laser in neurosurgery. Part 2. Clinical studies: an adjunctive measure for hemostasis in resection of arteriovenous malformations, 540
Noninvasive detection of intracranial vascular lesions using an electronic stethoscope, 553
Subarachnoid hemorrhage in childhood and adolescence, 1163
Surgical treatment of tentorial arteriovenous malformations draining into the subarachnoid space. Report of four cases, 1059
Artery, *see* specific arteries
Artery of Heubner
Microsurgical anatomy of the recurrent artery of Heubner, 130
Astrocytoma
Brachytherapy of recurrent malignant brain tumors with removable high-activity iodine-125 sources, 61
Atlantoaxial dislocation
New steel device for occipitocervical fixation. Technical note, 1104
Autoradiography
A new model of transient hindbrain ischemia in gerbils, 1054
Autoregulation
Origin and evolution of plateau waves. Experimental observations and a theoretical model, 312
Axis
Treatment of pedicular fractures of the axis. A clinical study and screw fixation technique, 88
Axoplasmic transport
Experimental sensory ganglionectomy by way of suicide axoplasmic transport, 108
AZQ
The pharmacology of diaziquone given in intravenous or intracarotid infusion to normal and intracranial tumor-bearing puppies, 1005

Bacterial aneurysm
Bacterial aneurysms of the intracavernous carotid artery, 1236
Bacteroides fragilis
Experimental anaerobic brain abscess. Computerized tomographic and neuropathological correlations, 1148
Balloon shunt
Indwelling double-balloon shunt for carotid endarterectomy. Technical note, 861
Barbiturate
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Comparison of sodium thiopental and methohexital for high-dose barbiturate anesthesia, 602
Barbiturate coma
Progressive posttraumatic superior sagittal sinus thrombosis complicated by pulmonary embolism. Case report, 179
BCNU
BCNU solubility and toxicity in the treatment of malignant astrocytomas, 1134

Index

Beagle puppy model
Beagle puppy model of intraventricular hemorrhage. Effect of indomethacin on local cerebral glucose utilization, 737
Berry aneurysm
Subarachnoid hemorrhage in childhood and adolescence, 1163
Bioassay
CSF smooth-muscle constrictor activity associated with cerebral vasospasm and mortality in SAH patients, 927
Blood-brain barrier
Acute responses to experimental blunt head trauma. Topography of cerebral cortical edema, 473
Blood-brain barrier disruption in immature Fischer 344 rats, 743
Significance of contrast enhancement in cranial computerized tomography after subarachnoid hemorrhage, 335
Blood gas analysis
Pulmonary embolism in neurosurgical patients: diagnosis and treatment, 972

Brachytherapy
Brachytherapy of recurrent malignant brain tumors with removable high-activity iodine-125 sources, 61
Brain death
Families, brain death, and traditional medical excellence, 1192
Brain growth
Roentgen stereophotogrammetric analysis of neurocranial suturectomy in rabbits, 158
Brain retraction
Perioperative use of somatosensory evoked responses in aneurysm surgery, 269
Brain stem
Acute intracranial hypertension and brain-stem blood flow. An experimental study, 566
Ganglioglioma of the brain stem. Case report, 431
Brain-stem auditory evoked potentials, *see* Evoked potentials
Brain stimulation
Changes in food intake with electrical stimulation of the ventromedial hypothalamus in dogs, 1253

Brain tissue pressure
Brain tissue pressure: physiological observations in anesthetized cats, 1219
Brain tumor, *see also* specific tumors
Brachytherapy of recurrent malignant brain tumors with removable high-activity iodine-125 sources, 61
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Mononuclear lymphoid populations infiltrating the microenvironment of primary CNS tumors. Characterization of cell subsets with monoclonal antibodies, 1138
Multiple intracranial metastases of malignant melanoma with long-term survival. Case report, 621
Nutrition and the neurosurgical patient, 219
The pharmacology of diaziquone given in intravenous or intracarotid infusion to normal and intracranial tumor-bearing puppies, 1005
Primary cerebral neuroblastoma. Letters, 1116
Telemetric ICP monitoring after surgery for posterior fossa and third ventricular tumors. Technical note, 649
Treatment of delayed radiation necrosis of the brain. A clinical observation, 589
An unusual complication of Dura Film as a dural substitute. Report of two cases, 1076
Use of the argon surgical laser in neurosurgery, 523
Bromocriptine
Clinical and pathological effects of bromocriptine on prolactin-secreting and other pituitary tumors, 1
Bypass procedure, *see* Anastomosis

Calcification
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69
Ultrastructural study of the formation of psammoma bodies in fibroblastic meningioma, 512
An unusual fibro-osseous lesion of the brain. Case report, 1308
Calcium antagonist
Evaluation of the calcium channel antagonist nimodipine in experimental spinal cord ischemia, 796
Calcium pyrophosphate dihydrate
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69
Candida albicans
Cerebellar mass caused by *Candida* species. Case report, 428
Carbon dioxide laser
Does the CO_2 laser spread viable brain-tumor cells outside the surgical field? 819
Cardiac output
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Carotid artery
Adequacy of intravenous digital subtraction angiography. Letters, 1331
Bacterial aneurysms of the intracavernous carotid artery, 1236
Traumatic carotid-cavernous fistula due to transection of the intracavernous carotid artery. Case report, 1080
Carotid artery stenosis
Changes in intracranial stenotic lesions after extracranial-intracranial bypass surgery, 771
Carotid body tumor
Embolization of carotid body tumors. Letter, 1116
Carotid-cavernous fistula
Spontaneous carotid-cavernous fistulas: clinical, radiological, and therapeutic considerations. Experience with 20 cases, 976
Traumatic carotid-cavernous fistula due to transection of the intracavernous carotid artery. Case report, 1080
Carotid compression study
Vertebrobasilar occlusion therapy of giant aneurysms. Significance of angiographic morphology of the posterior communicating arteries, 560
Cat model
Acute responses to experimental blunt head trauma. Topography of cerebral cortical edema, 473
Catecholamine
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089
Causalgia
Causalgic pain relieved by prolonged procaine amide sympathetic blockade. Case report, 1095
Phenoxybenzamine in the treatment of causalgia. Report of 40 cases, 1263
Cavernous hemangioma
Cavernous hemangioma of the optic canal. Report of two cases, 838
Giant cystic cavernoma in a child. Case report, 1297
Hemangioma calcificans. Case report, 417
Hemangioma calcificans. Letters, 1335
Cavernous sinus
Spontaneous carotid-cavernous fistulas: clinical, radiological, and therapeutic considerations. Experience with 20 cases, 976
Traumatic carotid-cavernous fistula due to transection of the intracavernous carotid artery. Case report, 1080
Cavernous sinus thrombophlebitis
Bacterial aneurysms of the intracavernous carotid artery, 1236
Cell growth factor
Establishment of experimental malignant glioma-specific cytotoxic T lymphocyte clone by T cell growth factor, 998
Central conduction time
Perioperative use of somatosensory evoked responses in aneurysm surgery, 269
Somatosensory evoked potential monitoring during the management of aneurysmal SAH, 264
Central nervous system tumor
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Mononuclear lymphoid populations infiltrating the microenvironment of primary CNS tumors. Characterization of cell subsets with monoclonal antibodies, 1138
Cerebellar ataxia
Diverticulum of the lateral ventricle. Letters, 660
Cerebellar pseudotumor
Cerebellar mass caused by *Candida* species. Case report, 428
Cerebellopontine angle
Cerebellopontine angle meningiomas. Microsurgical excision and follow-up results, 500
Craniopharyngioma of the cerebellopontine angle. Case report, 842
Cerebellum
Cerebellar mass caused by *Candida* species. Case report, 428
Granulomolecular hypertrophy of the cerebellum (Lhermitte-Duclos disease). Case report, 644
Cerebral artery
Cortical arteriovenous fistula associated with skull fracture. Case report, 192
Nature of the vasoactive substance in CSF from patients with subarachnoid hemorrhage, 1186
Cerebral blood flow
Acute intracranial hypertension and brain-stem blood flow. An experimental study, 566
Alteration of somatosensory evoked potentials in response to global ischemia, 490
Beneficial effects of induced hypertension on experimental stroke in awake monkeys, 151
Cerebral circulation and metabolism, 883
Comparison of sodium thiopental and methohexital for high-dose barbiturate anesthesia, 602
Evaluation of cerebrovascular spasm with transcranial Doppler ultrasound, 37

Index

Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Musical murmurs in human cerebral arteries after subarachnoid hemorrhage, 32
Naloxone and focal cerebral ischemia. Letters, 1328
A new model of transient hindbrain ischemia in gerbils, 1054
Serial measurement of regional cerebral blood flow in patients with SAH using ^{133}Xe inhalation and emission computerized tomography, 916
Systemic and cerebral effects of prostacyclin-induced arterial hypotension in the dog, 1201
Cerebral calculi
An unusual fibro-osseous lesion of the brain. Case report, 1308
Cerebral cortex
Acute responses to experimental blunt head trauma. Topography of cerebral cortical edema, 473
Cerebral infarction
Causes of acute deterioration in patients with a ruptured intracranial aneurysm. A prospective study with serial CT scanning, 935
Cerebral perfusion pressure
Experimental study on the pathogenesis of heat stroke, 1246
Origin and evolution of plateau waves. Experimental observations and a theoretical model, 312
Cerebral vasospasm
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 1: Clinical and radiological findings, 1167
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 2: Pathological findings, 1176
Cerebritis
Experimental anaerobic brain abscess. Computerized tomographic and neuropathological correlations, 1148
Cerebrospinal fluid
β-Endorphin-like immunoreactivity increases in human lumbar cerebrospinal fluid following routine metrizamide myelography, 800
Cerebrospinal fluid shunt infection. Influences on initial management and subsequent outcome, 1014
CSF smooth-muscle constrictor activity associated with cerebral vasospasm and mortality in SAH patients, 927
Effects of halothane and fentanyl anesthesia on resistance to reabsorption of CSF, 252
Endolymphatic hydrops and CSF pressure. Letters, 1332
Nature of the vasoactive substance in CSF from patients with subarachnoid hemorrhage, 1186
Telemetric ICP monitoring after surgery for posterior fossa and third ventricular tumors. Technical note, 649
Cerebrospinal fluid absorption
CSF dynamics in patients with subarachnoid and/or intraventricular hemorrhage, 940
CSF formation and absorption. Letters, 1328
The effects of raised ICP on lymph flow in the cervical lymphatic trunks in cats, 577
Cerebrospinal fluid flow
Radionuclide estimation of cerebrospinal fluid shunt flow. Evidence supporting an alternative theoretical model, 361
Cerebrovascular disease
Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Some inquiries in neuroanesthesia and neurological supportive care, 673
Cervical lymphatic system
The effects of raised ICP on lymph flow in the cervical lymphatic trunks in cats, 577
Cervical spine
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Cord compression by cervical disc. Letters, 1112
Delayed onset of Lhermitte's sign following head and/or neck injuries. Report of four cases, 609
Hangman's fracture with complete dislocation of C-2 on C-3. Case report, 633
Intradural extramedullary tuberculoma of the cervical spine. Case report, 200
New steel device for occipitocervical fixation. Technical note, 1104
Pediatric neck injuries. A clinical study, 700
Transoral surgery for craniocervical space-occupying processes, 276
Treatment of pedicular fractures of the axis. A clinical study and screw fixation technique, 88
Vertebral trephine: a new instrument for anterior cervical fusion. Technical note, 1315
Cervicomedullary decompression
Transoral surgery for craniocervical space-occupying processes, 276
Chemonucleolysis
Danger of intravenous injection during chemonucleolysis. Letter, 1327
Intradiscal pressure-volume response: a methodological contribution to chemonucleolysis. Preliminary results, 1029
Morphological alterations of the degenerated lumbar disc following chemonucleolysis with chymopapain, 518
Chemotherapy
Acute nonlymphocytic leukemia following treatment of malignant glioma. Report of two cases, 1287
BCNU solubility and toxicity in the treatment of malignant astrocytomas, 1134
Cerebellar medulloblastoma in adults, 994
Supratentorial malignant gliomas of childhood. Results of treatment with radiation therapy and chemotherapy, 495
Children
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Expanding cranial defects. Letters, 1113
Giant cystic cavernoma in a child. Case report, 1297
Pediatric neck injuries. A clinical study, 700
Subarachnoid hemorrhage in childhood and adolescence, 1163
Supratentorial malignant gliomas of childhood. Results of treatment with radiation therapy and chemotherapy, 495
Surgical management of epilepsy using epidural recordings to localize the seizure focus. Review of 100 cases, 457
Chondrocalcinosis
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69
Chondroma
Spinal cord compression by an osteochondroma in a patient with multiple osteochondromatosis. Case report, 420
Chorea
Chorea as a manifestation of epidural hematoma. Case report, 856
Choroid plexus cyst
Choroid plexus cyst of the lateral ventricle in an elderly man. Case report, 435
Chromosome markers
Intracerebral transplantation of a human glioma line in immunosuppressed rats, 582
Chymopapain
Intradiscal pressure-volume response: a methodological contribution to chemonucleolysis. Preliminary results, 1029
Morphological alterations of the degenerated lumbar disc following chemonucleolysis with chymopapain, 518
Treatment of protruded intervertebral discs. Letters, 878
Circle of Willis
Microsurgical anatomy of the region of the tentorial incisura, 365
Cistern
The value of computerized tomography in aneurysmal subarachnoid hemorrhage. The concept of the CT score, 763
Clip
Booster clips for giant and thick-based aneurysms, 751

Characteristics and use of ultra-long aneurysm clips, 145
Clivus
Transoral surgery for craniocervical space-occupying processes, 276
CO_2 laser
Laser effect on spinal cord. Letters. 870; 1117
Laser-induced DREZ lesions. Letters, 870
Coagulation
The Nd:YAG laser in neurosurgery. Part 1. Laboratory investigations: dose-related biological response of neural tissue, 531
The Nd:YAG laser in neurosurgery. Part 2. Clinical studies: an adjunctive measure for hemostasis in resection of arteriovenous malformations, 540
Collagen fiber
Ultrastructural study of the formation of psammoma bodies in fibroblastic meningioma, 512
Comprehensive Level of Consciousness Scale
Assessment of level of consciousness following severe neurological insult. A comparison of the psychometric qualities of the Glasgow Coma Scale and the Comprehensive Level of Consciousness Scale, 955
Computerized tomography
Air(?) in epidural hematomas. Letters, 879
Causes of acute deterioration in patients with a ruptured intracranial aneurysm. A prospective study with serial CT scanning, 935
Cerebral air embolism occurring at angiography and diagnosed by computerized tomography. Case report, 177
The correlation between surgical and CT estimates of brain damage following missile wounds, 947
Diagnosis of an "isodense" pituitary microadenoma by dynamic CT scanning. Case report, 424
Diverticulum of the lateral ventricle. Letters, 660
Intradural extramedullary tuberculoma of the cervical spine. Case report, 200
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 1: Clinical and radiological findings, 1167
Risk of CT scanning for epidural hematomas. Letters, 1112
Significance of contrast enhancement in cranial computerized tomography after subarachnoid hemorrhage, 335
Subselective preoperative embolization for meningiomas. A radiological and pathological assessment, 506
The value of computerized tomography in aneurysmal subarachnoid hemorrhage. The concept of the CT score, 763
Congenital abnormality
Dysplastic gangliocytoma of cerebellum in a newborn. Case report, 845
Familial oligodendroglioma. Case report, 848
Consciousness scale
Assessment of level of consciousness following severe neurological insult. A comparison of the psychometric qualities of the Glasgow Coma Scale and the Comprehensive Level of Consciousness Scale, 955
Contrast material
Danger of intravenous injection during chemonucleolysis. Letter, 1327
Contusion
Acute responses to experimental blunt head trauma. Topography of cerebral cortical edema, 473
Cortical electrodes
Subdural strip electrodes for localizing epileptogenic foci, 1195
Corticosteroid therapy
Effect of phenytoin and corticosteroids on seizures and lipid peroxidation in experimental posttraumatic epilepsy, 467
Legionnaire's disease in neurosurgical patients. Letters, 874
Megadose corticosteroid therapy following experimental traumatic spinal injury, 712
Primary cerebral lymphoma: the "ghost tumor." Case report, 174
Cottonoid marker
Cottonoid as an acoustical marker for intraoperative ultrasound scanning. Technical note, 438
Cranial nerve
Jugular foramen schwannomas, 1045
Success of microvascular decompression with and without prior surgical therapy for trigeminal neuralgia, 104
Cranial suture
Roentgen stereophotogrammetric analysis of neurocranial suturectomy in rabbits, 158
Roentgen stereophotogrammetric analysis of restricted periods of neurocranial suture immobilization in rabbits, 166
Craniopharyngioma
Craniopharyngioma of the cerebellopontine angle. Case report, 842
Craniostenosis
Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Roentgen stereophotogrammetric analysis of restricted periods of neurocranial suture immobilization in rabbits, 166
Craniosynostosis
Roentgen stereophotogrammetric analysis of neurocranial suturectomy in rabbits, 158
Cryoprecipitate
Use of cryoprecipitate coagulum to control tumor-bed bleeding. Case report, 1099
Cutaneous tumor
Primary cutaneous extravertebral meningioma. Case report, 1097
Cyclosporin A
Survival of nerve allografts in sensitized rats treated with cyclosporin A, 828
Cyst
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Intracranial squamous cell carcinomas. Letters, 452
Intramedullary endodermal cysts. Letter, 877
Intrasellar hydatid cyst. Case report, 647
Surgical considerations in treatment of intraventricular cysticercosis. An analysis of 45 cases, 400
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Cystic tumor
Giant cystic cavernoma in a child. Case report, 1297
Cysticercosis
Surgical considerations in treatment of intraventricular cysticercosis. An analysis of 45 cases, 400
Cytochemistry
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Decompression surgery
Success of microvascular decompression with and without prior surgical therapy for trigeminal neuralgia, 104
Dementia
Outcome 1 year after SAH from cerebral aneurysm. Management morbidity, mortality, and functional status in 112 consecutive good-risk patients, 909
Depth electrode
Subdural strip electrodes for localizing epileptogenic foci, 1195
Dexamethasone
Legionnaire's disease in neurosurgical patients. Letters, 874
Megadose corticosteroid therapy following experimental traumatic spinal injury, 712
Response of chronic experimental cerebral vasospasm to methylprednisolone and dexamethasone, 923

Index

Diabetes mellitus
Diabetic polyradiculopathy simulating lumbar disc disease. Report of four cases, 183
Diaziquone
The pharmacology of diaziquone given in intravenous or intracarotid infusion to normal and intracranial tumor-bearing puppies, 1005
Dimethyl sulfoxide
Blood-brain barrier disruption in immature Fischer 344 rats, 743
Disc, *see* Intervertebral disc
Discectomy
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Dissecting aneurysm
Subarachnoid hemorrhage from intracranial dissecting aneurysm, 325
Disulfide bond
Nature of the vasoactive substance in CSF from patients with subarachnoid hemorrhage, 1186
Diverticulum
Diverticulum of the lateral ventricle. Letters, 660
Dorsal root entry zone
Dorsal root entry zone lesions for the treatment of post-herpetic neuralgia, 1258
Laser effect on spinal cord. Letter, 870
Laser-induced DREZ lesions. Letters, 870
Use of the argon surgical laser in neurosurgery, 523
Drug infusion
BCNU solubility and toxicity in the treatment of malignant astrocytomas, 1134
Danger of intravenous injection during chemonucleolysis. Letter, 1327
The pharmacology of diaziquone given in intravenous or intracarotid infusion to normal and intracranial tumor-bearing puppies, 1005
Dura mater
Dural arteriovenous malformations of the spine. Clinical features and surgical results in 55 cases, 238
Dural involvement in sinus histiocytosis with massive lymphadenopathy. Case report, 850
Repair of spinal dural defects. An experimental study, 1022
Dural fistula
Spontaneous carotid-cavernous fistulas: clinical, radiological, and therapeutic considerations. Experience with 20 cases, 976
Dural sinus
Progressive posttraumatic superior sagittal sinus thrombosis complicated by pulmonary embolism. Case report, 179
Dural substitute
Recurrent subarachnoid bleeding in association with dural substitute. Report of three cases, 408
Repair of spinal dural defects. An experimental study, 1022
An unusual complication of Dura Film as a dural substitute. Report of two cases, 1076
Dynamic computerized tomography
Diagnosis of an "isodense" pituitary microadenoma by dynamic CT scanning. Case report, 424

Early aneurysm surgery
Early aneurysm operation and outcome in two remote Scandinavian populations, 1160
Echinococcus
Intrasellar hydatid cyst. Case report, 647
Edema
Acute responses to experimental blunt head trauma. Topography of cerebral cortical edema, 473
Brain tissue pressure: physiological observations in anesthetized cats, 1219
Cerebral circulation and metabolism, 883
Experimental study on the pathogenesis of heat stroke, 1246
Intracranial and systemic effects of osmotic and oncotic therapy in experimental cerebral edema, 481
Osmotic agents and intracranial pressure. Letters, 1114
Pulmonary hypertension, pulmonary edema, and decreased pulmonary compliance produced by increased ICP in cats, 1207
Electrocorticography
Subdural strip electrodes for localizing epileptogenic foci, 1195
Surgical management of epilepsy using epidural recordings to localize the seizure focus. Review of 100 cases, 457
Electroencephalography
Subdural strip electrodes for localizing epileptogenic foci, 1195
Electronic stethoscope
Noninvasive detection of intracranial vascular lesions using an electronic stethoscope, 553
Embolism, *see also* Air embolism
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Indications for surgical intervention in middle cerebral artery obstruction, 296
Transient neurological deficits secondary to saccular vertebrobasilar aneurysms. Report of two cases, 410
Embolization
Cerebral arteriovenous malformations. Indications for and results of surgery, and the role of intravascular techniques, 14
Embolization of carotid body tumors. Letter, 1116
Somatosensory evoked potentials during spinal angiography and therapeutic transvascular embolization, 777
Spontaneous carotid-cavernous fistulas: clinical, radiological, and therapeutic considerations. Experience with 20 cases, 976
Subselective preoperative embolization for meningiomas. A radiological and pathological assessment, 506
Emission tomography
Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Endarterectomy
Adequacy of intravenous digital subtraction angiography. Letters, 1331
Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Indwelling double-balloon shunt for carotid endarterectomy. Technical note, 861
Endolymphatic hydrops
Endolymphatic hydrops and CSF pressure. Letters, 1332
Enflurane
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Enolase
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Enzymes
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Ependymoma
Radiation therapy for ependymomas. Letters, 658
Epidemiology
The contribution of brain injury to the overall injury severity of brain-injured patients, 697
Epidermoid tumor
Epidermoid tumor presenting as tension pneumocephalus. Case report, 1312
Intracranial squamous cell carcinomas. Letters, 452
Epidural electrode
Percutaneous flexible bipolar epidural neuroelectrode for spinal cord stimulation. Technical note, 1317
Surgical management of epilepsy using epidural recordings to localize the seizure focus. Review of 100 cases, 457
Epidural hematoma
Air(?) in epidural hematomas. Letters, 879

Chorea as a manifestation of epidural hematoma. Case report, 856
Risk of CT scanning for epidural hematomas. Letters, 1112
Epidural tumor
Transoral surgery for craniocervical space-occupying processes, 276
Epilepsy
Effect of phenytoin and corticosteroids on seizures and lipid peroxidation in experimental posttraumatic epilepsy, 467
Prophylactic phenytoin. Letter, 877
Subdural strip electrodes for localizing epileptogenic foci, 1195
Surgical management of epilepsy using epidural recordings to localize the seizure focus. Review of 100 cases, 457
Epithelium-lined cyst
Choroid plexus cyst of the lateral ventricle in an elderly man. Case report, 435
Estrogen
Estrogen and progesterone receptors in meningiomas, 985
Ethyl alcohol
BCNU solubility and toxicity in the treatment of malignant astrocytomas, 1134
Evoked potentials
Alteration of somatosensory evoked potentials in response to global ischemia, 490
Dorsal root entry zone lesions for the treatment of post-herpetic neuralgia, 1258
Effect of intravenous lidocaine on experimental spinal cord injury, 595
Measurements of brain-stem auditory evoked potentials in patients with spontaneous intracerebral hemorrhage, 548
Neurological outcome correlated with spinal evoked potentials in a spinal cord ischemia model, 786
Percutaneous flexible bipolar epidural neuroelectrode for spinal cord stimulation. Technical note, 1317
Perioperative use of somatosensory evoked responses in aneurysm surgery, 269
Protective effect of lidocaine in acute cerebral ischemia induced by air embolism, 257
Somatosensory evoked potential monitoring during the management of aneurysmal SAH, 264
Somatosensory evoked potentials during spinal angiography and therapeutic transvascular embolization, 777
Spinal cord compression by an osteochondroma in a patient with multiple osteochondromatosis. Case report, 420
Spinal cord monitoring during surgery by direct recording of somatosensory evoked potentials. Technical note, 440
Surgical management of epilepsy using epidural recordings to localize the seizure focus. Review of 100 cases, 457
Exophthalmos
Intracranial extension of inflammatory pseudotumor of the orbit. Case report, 625
Pulsating unilateral exophthalmos due to traumatic aneurysm of the intraorbital ophthalmic artery. Case report, 630
Expanding cranial defect
Expanding cranial defects. Letters, 1113
External carotid artery
Traumatic middle meningeal arteriovenous fistula caused by three-point skull fixation. Case report, 853
Extracranial-intracranial bypass
Changes in intracranial stenotic lesions after extracranial-intracranial bypass surgery, 771
Cortical artery aneurysm formation after extracranial to intracranial bypass surgery. Case report, 636

Facial nerve
Observations on synkinesis in patients with hemifacial spasm. Effect of microvascular decompression and etiological considerations, 821

Familial brain tumor
Familial oligodendroglioma. Case report, 848
Fat autograft
Repair of spinal dural defects. An experimental study, 1022
Fentanyl
Effects of halothane and fentanyl anesthesia on resistance to reabsorption of CSF, 252
Fibro-osseous lesion
An unusual fibro-osseous lesion of the brain. Case report, 1308
Food intake
Changes in food intake with electrical stimulation of the ventromedial hypothalamus in dogs, 1253
Fourth ventricle
Plasma-cell granuloma of the fourth ventricle. Case report, 1291
Fracture-dislocation
Hangman's fracture with complete dislocation of C-2 on C-3. Case report, 633
Harrington rod stabilization for pathological fractures of the spine, 282
Furosemide
Intracranial and systemic effects of osmotic and oncotic therapy in experimental cerebral edema, 481

Gangliocytoma
Dysplastic gangliocytoma of cerebellum in a newborn. Case report, 845
Granulomolecular hypertrophy of the cerebellum (Lhermitte-Duclos disease). Case report, 644
Ganglioglioma
Ganglioglioma of the brain stem. Case report, 431
Ganglionectomy
Experimental sensory ganglionectomy by way of suicide axoplasmic transport, 108
Genetics
Familial oligodendroglioma. Case report, 848
Gentamicin
Antibiotic prophylaxis in neurosurgery. A randomized controlled trial, 724
Gerbil model
A new model of transient hindbrain ischemia in gerbils, 1054
Germinal matrix
Beagle puppy model of intraventricular hemorrhage. Effect of indomethacin on local cerebral glucose utilization, 737
Posthemorrhagic hydrocephalus. Low incidence in very low birth weight neonates with intraventricular hemorrhage, 343
Germinoma
Disseminated hematogenous metastases from a pineal germinoma in an infant. Case report, 835
Glasgow Coma Scale
Assessment of level of consciousness following severe neurological insult. A comparison of the psychometric qualities of the Glasgow Coma Scale and the Comprehensive Level of Consciousness Scale, 955
Glial fibrillary acidic protein
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Glioblastoma
Ganglioglioma of the brain stem. Case report, 431
The pharmacology of diaziquone given in intravenous or intracarotid infusion to normal and intracranial tumor-bearing puppies, 1005
Glioma
Acute nonlymphocytic leukemia following treatment of malignant glioma. Report of two cases, 1287
BCNU solubility and toxicity in the treatment of malignant astrocytomas, 1134
Does the CO_2 laser spread viable brain-tumor cells outside the surgical field? 819

Index

Establishment of experimental malignant glioma-specific cytotoxic T lymphocyte clone by T cell growth factor, 998
Familial oligodendroglioma. Case report, 848
Intracerebral transplantation of a human glioma line in immunosuppressed rats, 582
Supratentorial malignant gliomas of childhood. Results of treatment with radiation therapy and chemotherapy, 495
Surgical approaches to the orbit. Indications and techniques, 1226
Glucose utilization
Beagle puppy model of intraventricular hemorrhage. Effect of indomethacin on local cerebral glucose utilization, 737
Granule cell hypertrophy
Granulomolecular hypertrophy of the cerebellum (Lhermitte-Duclos disease). Case report, 644
Granuloma
Cerebellar mass caused by *Candida* species. Case report, 428
Intracranial sparganosis: an uncommon infection. Case report, 1282
Plasma-cell granuloma of the fourth ventricle. Case report, 1291
Ground substance
Morphological alterations of the degenerated lumbar disc following chemonucleolysis with chymopapain, 518
Guanethidine
Phenoxybenzamine in the treatment of causalgia. Report of 40 cases, 1263

Halothane
Effects of halothane and fentanyl anesthesia on resistance to reabsorption of CSF, 252
Perioperative use of somatosensory evoked responses in aneurysm surgery, 269
Hangman's fracture
Hangman's fracture with complete dislocation of C-2 on C-3. Case report, 633
Harrington rod
Harrington rod stabilization for pathological fractures of the spine, 282
Head holder
Traumatic middle meningeal arteriovenous fistula caused by three-point skull fixation. Case report, 853
Head injury
Acute responses to experimental blunt head trauma. Topography of cerebral cortical edema, 473
Assessment of Leeds device for monitoring intracranial pressure, 123
Chorea as a manifestation of epidural hematoma. Case report, 856
The contribution of brain injury to the overall injury severity of brain-injured patients, 697
The correlation between surgical and CT estimates of brain damage following missile wounds, 947
Cortical arteriovenous fistula associated with skull fracture. Case report, 192
Delayed onset of Lhermitte's sign following head and/or neck injuries. Report of four cases, 609
Effect of high-frequency ventilation versus conventional mechanical ventilation on ICP in head-injured dogs, 1214
Expanding cranial defects. Letters, 1113
Experimental brain injury: successful therapy with the weak base, tromethamine. With an overview of CNS acidosis, 961
Interhemispheric subdural hematoma. Case report, 1300
Intracranial and systemic effects of osmotic and oncotic therapy in experimental cerebral edema, 481
Intracranial pressure monitoring in head injuries. Letters, 658
The metabolic response to severe head injury, 687
Modification of the Richmond subarachnoid screw for monitoring intracranial pressure. Technical note, 1102
Nutrition and the neurosurgical patient, 219
Nutritional support in acute head injuries. Letters, 1334
Origin and evolution of plateau waves. Experimental observations and a theoretical model, 312
Outcome after head injury. Letters, 1331
Parenteral nutrition in head injury. Letters, 874
Progressive posttraumatic superior sagittal sinus thrombosis complicated by pulmonary embolism. Case report, 179
Prophylactic phenytoin. Letter, 877
Heat stroke
Experimental study on the pathogenesis of heat stroke, 1246
Hemangioblastoma
Von Hippel-Lindau syndrome with microscopic hemangioblastomas of the spinal nerve roots. Case report, 1279
Hemangioma
Cavernous hemangioma of the optic canal. Report of two cases, 838
Giant cystic cavernoma in a child. Case report, 1297
Hemangioma calcificans
Hemangioma calcificans. Case report, 417
Hemangioma calcificans. Letters. 876; 1335
Hemangiopericytoma
Use of cryoprecipitate coagulum to control tumor-bed bleeding. Case report, 1099
Hematoma, *see also* Subdural hematoma, Epidural hematoma
Dural arteriovenous malformation in the posterior fossa associated with intracerebellar hematoma. Case report, 1067
Neoplastic cerebral aneurysm from lung cancer. Case report, 640
Hemifacial spasm
Observations on synkinesis in patients with hemifacial spasm. Effect of microvascular decompression and etiological considerations, 821
Postural fluctuation of hemifacial spasm. Case report, 190
Hemodynamics
Evaluation of cerebrovascular spasm with transcranial Doppler ultrasound, 37
Hemorrhage
Cerebral arteriovenous malformations. Indications for and results of surgery, and the role of intravascular techniques, 14
Hemangioma calcificans. Case report, 417
Hemangioma calcificans. Letters, 1335
Hemostasis
The Nd:YAG laser in neurosurgery. Part 1. Laboratory investigations: dose-related biological response of neural tissue, 531
The Nd:YAG laser in neurosurgery. Part 2. Clinical studies: an adjunctive measure for hemostasis in resection of arteriovenous malformations, 540
Use of cryoprecipitate coagulum to control tumor-bed bleeding. Case report, 1099
Heparin
Pulmonary embolism in neurosurgical patients: diagnosis and treatment, 972
Treatment of delayed radiation necrosis of the brain. A clinical observation, 589
Herpes zoster
Dorsal root entry zone lesions for the treatment of post-herpetic neuralgia, 1258
Hindbrain
A new model of transient hindbrain ischemia in gerbils, 1054
Histiocytosis X
Dural involvement in sinus histiocytosis with massive lymphadenopathy. Case report, 850
History of neurosurgery
Successful radical removal of an intracranial meningioma in 1835 by Professor Pecchioli of Siena, 47
Holography
Holographic investigation of the impact response of human heads, 718
Homeostasis
Cerebral circulation and metabolism, 883

Hormone receptors
Estrogen and progesterone receptors in meningiomas, 985
Hydatid cyst
Intrasellar hydatid cyst. Case report, 647
Hydrocephalus
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Cerebrospinal fluid shunt infection. Influences on initial management and subsequent outcome, 1014
CSF dynamics in patients with subarachnoid and/or intraventricular hemorrhage, 940
CSF formation and absorption. Letters, 1328
Diverticulum of the lateral ventricle. Letters, 660
Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Kaolin-induced congenital hydrocephalus *in utero* in fetal lambs and rhesus monkeys, 115
Percutaneous insertion of peritoneal shunt catheters with use of the Veress needle. Technical note, 444
Posthemorrhagic hydrocephalus. Low incidence in very low birth weight neonates with intraventricular hemorrhage, 343
Surgical considerations in treatment of intraventricular cysticercosis. An analysis of 45 cases, 400
Hypertension
Beneficial effects of induced hypertension on experimental stroke in awake monkeys, 151
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089
Hyperthermia
Experimental study on the pathogenesis of heat stroke, 1246
Hypoglossal artery
Persistent hypoglossal artery. Letter, 661
Hyponatremia
Hyponatremia and natriuresis following subarachnoid hemorrhage in a monkey model, 233
Hypopituitarism
Intrasellar hydatid cyst. Case report, 647
Hypotension
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Systemic and cerebral effects of prostacyclin-induced arterial hypotension in the dog, 1201
Hypothalamic nucleus
Changes in food intake with electrical stimulation of the ventromedial hypothalamus in dogs, 1253

Immunocytochemistry
Clinical and pathological effects of bromocriptine on prolactin-secreting and other pituitary tumors, 1
Immunofluorescence
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Immunohistochemistry
Aminergic innervation of cerebral veins. Histochemical comparison with extracranial veins, 140
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Immunology
Mononuclear lymphoid populations infiltrating the microenvironment of primary CNS tumors. Characterization of cell subsets with monoclonal antibodies, 1138
Immunoperoxidase
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Mononuclear lymphoid populations infiltrating the microenvironment of primary CNS tumors. Characterization of cell subsets with monoclonal antibodies, 1138
Immunosuppression
Intracerebral transplantation of a human glioma line in immunosuppressed rats, 582
Legionnaire's disease in neurosurgical patients. Letters, 874
Primary lymphoma of the central nervous system. Clinicopathological study of experience at Stanford, 94
Survival of nerve allografts in sensitized rats treated with cyclosporin A, 828
Immunotherapy
Establishment of experimental malignant glioma-specific cytotoxic T lymphocyte clone by T cell growth factor, 998
Impact injury
Holographic investigation of the impact response of human heads, 718
Impedance audiometry
Observations on synkinesis in patients with hemifacial spasm. Effect of microvascular decompression and etiological considerations, 821
Inappropriate secretion of antidiuretic hormone
Hyponatremia and natriuresis following subarachnoid hemorrhage in a monkey model, 233
Incisura
Microsurgical anatomy of the region of the tentorial incisura, 365
Indomethacin
Beagle puppy model of intraventricular hemorrhage. Effect of indomethacin on local cerebral glucose utilization, 737
Infarction
Neurological outcome correlated with spinal evoked potentials in a spinal cord ischemia model, 786
Infection, *see also* specific bacteria
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Infusion test
Assessment of Leeds device for monitoring intracranial pressure, 123
Instrumentation
Characteristics and use of ultra-long aneurysm clips, 145
Modification of the Richmond subarachnoid screw for monitoring intracranial pressure. Technical note, 1102
New steel device for occipitocervical fixation. Technical note, 1104
Noninvasive detection of intracranial vascular lesions using an electronic stethoscope, 553
Transparent optical neurosurgical instruments. Technical note, 208
Vertebral trephine: a new instrument for anterior cervical fusion. Technical note, 1315
Interferon
Establishment of experimental malignant glioma-specific cytotoxic T lymphocyte clone by T cell growth factor, 998
Intermedia
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Internal cerebral vein
Aminergic innervation of cerebral veins. Histochemical comparison with extracranial veins, 140
Intervertebral disc
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Danger of intravenous injection during chemonucleolysis. Letter, 1327
Intradiscal pressure-volume response: a methodological contribution to chemonucleolysis. Preliminary results, 1029
Intraradicular herniated lumbar disc. Case report, 858
Morphological alterations of the degenerated lumbar disc following chemonucleolysis with chymopapain, 518
Treatment of protruded intervertebral discs. Letters, 878
Intracerebral hemorrhage
Measurements of brain-stem auditory evoked potentials in patients with spontaneous intracerebral hemorrhage, 548

Index

Intracranial hemorrhage
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Intracranial pressure
Acute intracranial hypertension and brain-stem blood flow. An experimental study, 566
Brain tissue pressure: physiological observations in anesthetized cats, 1219
CSF dynamics in patients with subarachnoid and/or intraventricular hemorrhage, 940
Effect of high-frequency ventilation versus conventional mechanical ventilation on ICP in head-injured dogs, 1214
Effects of halothane and fentanyl anesthesia on resistance to reabsorption of CSF, 252
The effects of raised ICP on lymph flow in the cervical lymphatic trunks in cats, 577
Experimental brain injury: successful therapy with the weak base, tromethamine. With an overview of CNS acidosis, 961
Experimental study on the pathogenesis of heat stroke, 1246
Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Origin and evolution of plateau waves. Experimental observations and a theoretical model, 312
Osmotic agents and intracranial pressure. Letters, 1114
Pulmonary hypertension, pulmonary edema, and decreased pulmonary compliance produced by increased ICP in cats, 1207
Systemic and cerebral effects of prostacyclin-induced arterial hypotension in the dog, 1201
Intracranial pressure monitoring
Assessment of Leeds device for monitoring intracranial pressure, 123
Intracranial pressure monitoring in head injuries. Letters, 658
Modification of the Richmond subarachnoid screw for monitoring intracranial pressure. Technical note, 1102
Telemetric ICP monitoring after surgery for posterior fossa and third ventricular tumors. Technical note, 649
Intradural tumor
Intradural extramedullary tuberculoma of the cervical spine. Case report, 200
Intramedullary endodermal cyst
Intramedullary endodermal cysts. Letter, 877
Intraoperative monitoring
Percutaneous flexible bipolar epidural neuroelectrode for spinal cord stimulation. Technical note, 1317
Spinal cord monitoring during surgery by direct recording of somatosensory evoked potentials. Technical note, 440
Intrapulmonary shunting
Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
Intraradicular disc
Intraradicular herniated lumbar disc. Case report, 858
Intrasellar cyst
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Intravenous digital subtraction angiography
Adequacy of intravenous digital subtraction angiography. Letters, 1331
Intraventricular hemorrhage
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Beagle puppy model of intraventricular hemorrhage. Effect of indomethacin on local cerebral glucose utilization, 737
CSF dynamics in patients with subarachnoid and/or intraventricular hemorrhage, 940
Does moyamoya disease cause subarachnoid hemorrhage? Review of 54 cases with intracranial hemorrhage confirmed by computerized tomography, 348
Intraventricular hemorrhage in the premature rabbit pup. Limitations of this animal model, 1243
Posthemorrhagic hydrocephalus. Low incidence in very low birth weight neonates with intraventricular hemorrhage, 343
Intraventricular tumor
Choroid plexus cyst of the lateral ventricle in an elderly man. Case report, 435
Surgical considerations in treatment of intraventricular cysticercosis. An analysis of 45 cases, 400
Iodine-125
Brachytherapy of recurrent malignant brain tumors with removable high-activity iodine-125 sources, 61
Ion flux
Cerebral circulation and metabolism, 883
Iron salts
Effect of phenytoin and corticosteroids on seizures and lipid peroxidation in experimental posttraumatic epilepsy, 467
Ischemia
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Alteration of somatosensory evoked potentials in response to global ischemia, 490
Brain tissue pressure: physiological observations in anesthetized cats, 1219
Cerebral circulation and metabolism, 883
Experimental study on the pathogenesis of heat stroke, 1246
Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Indications for surgical intervention in middle cerebral artery obstruction, 296
Naloxone and focal cerebral ischemia. Letters, 1328
Neurological outcome correlated with spinal evoked potentials in a spinal cord ischemia model, 786
A new model of transient hindbrain ischemia in gerbils, 1054
Percutaneous flexible bipolar epidural neuroelectrode for spinal cord stimulation. Technical note, 1317
Perioperative use of somatosensory evoked responses in aneurysm surgery, 269
Protective effect of lidocaine in acute cerebral ischemia induced by air embolism, 257
Somatosensory evoked potential monitoring during the management of aneurysmal SAH, 264
The value of computerized tomography in aneurysmal subarachnoid hemorrhage. The concept of the CT score, 763

Jugular foramen
Jugular foramen schwannomas, 1045

Kaolin
Kaolin-induced congenital hydrocephalus *in utero* in fetal lambs and rhesus monkeys, 115

Laminectomy
Harrington rod stabilization for pathological fractures of the spine, 282
Laser
Does the CO_2 laser spread viable brain-tumor cells outside the surgical field? 819
Laser effect on spinal cord. Letters, 870; 1117

Laser-induced DREZ lesions. Letters, 870
Lasers in neurological surgery. Letters, 872
The Nd:YAG laser in neurosurgery. Part 1. Laboratory investigations: dose-related biological response of neural tissue, 531
The Nd:YAG laser in neurosurgery. Part 2. Clinical studies: an adjunctive measure for hemostasis in resection of arteriovenous malformations, 540
Use of the argon surgical laser in neurosurgery, 523
Lateral ventricle
Choroid plexus cyst of the lateral ventricle in an elderly man. Case report, 435
Diverticulum of the lateral ventricle. Letters, 660
Lectin
Experimental sensory ganglionectomy by way of suicide axoplasmic transport, 108
Legionnaire's disease
Legionnaire's disease in neurosurgical patients. Letters, 874
Leptomeningeal cyst
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Leukemia
Acute nonlymphocytic leukemia following treatment of malignant glioma. Report of two cases, 1287
Lhermitte-Duclos disease
Dysplastic gangliocytoma of cerebellum in a newborn. Case report, 845
Granulomolecular hypertrophy of the cerebellum (Lhermitte-Duclos disease). Case report, 644
Lhermitte's sign
Delayed onset of Lhermitte's sign following head and/or neck injuries. Report of four cases, 609
Lidocaine
Effect of intravenous lidocaine on experimental spinal cord injury, 595
Protective effect of lidocaine in acute cerebral ischemia induced by air embolism, 257
Ligamentum flavum
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69
Lumbar nerve root compression by synovial cysts of the ligamentum flavum. Report of four cases, 617
Limbic system
Arteriovenous malformations of the medial cerebral hemisphere and the limbic system, 23
Linear accelerator
Single-beam radiotherapy knife. A practical theoretical model, 814
Lipid peroxidation
Effect of phenytoin and corticosteroids on seizures and lipid peroxidation in experimental posttraumatic epilepsy, 467
Lumbar disc
Intraradicular herniated lumbar disc. Case report, 858
Morphological alterations of the degenerated lumbar disc following chemonucleolysis with chymopapain, 518
Lumbar spine
Lumbar nerve root compression by synovial cysts of the ligamentum flavum. Report of four cases, 617
Lung cancer
Neoplastic cerebral aneurysm from lung cancer. Case report, 640
Lymph flow
The effects of raised ICP on lymph flow in the cervical lymphatic trunks in cats, 577
Lymphadenopathy
Dural involvement in sinus histiocytosis with massive lymphadenopathy. Case report, 850
Lymphocyte
Establishment of experimental malignant glioma-specific cytotoxic T lymphocyte clone by T cell growth factor, 998
Mononuclear lymphoid populations infiltrating the microenvironment of primary CNS tumors. Characterization of cell subsets with monoclonal antibodies, 1138
Lymphoma
Primary cerebral lymphoma: the "ghost tumor." Case report, 174
Primary lymphoma of the central nervous system. Clinicopathological study of experience at Stanford, 94

Malignant tumor
Acute nonlymphocytic leukemia following treatment of malignant glioma. Report of two cases, 1287
BCNU solubility and toxicity in the treatment of malignant astrocytomas, 1134
Mannitol
Blood-brain barrier disruption in immature Fischer 344 rats, 743
Intracranial and systemic effects of osmotic and oncotic therapy in experimental cerebral edema, 481
Osmotic agents and intracranial pressure. Letters, 1114
Matrix vesicle
Ultrastructural study of the formation of psammoma bodies in fibroblastic meningioma, 512
Medical ethics
Families, brain death, and traditional medical excellence, 1192
Medulla oblongata
Acute intracranial hypertension and brain-stem blood flow. An experimental study, 566
Medulloblastoma
Cerebellar medulloblastoma in adults, 994
Primary cerebral neuroblastoma. Letters, 1116
Melanoma
Multiple intracranial metastases of malignant melanoma with long-term survival. Case report, 621
Meningioma
Cerebellopontine angle meningiomas. Microsurgical excision and follow-up results, 500
Estrogen and progesterone receptors in meningiomas, 985
Intracranial actinomycoma with osteomyelitis simulating meningioma. Case report, 204
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
Primary cutaneous extravertebral meningioma. Case report, 1097
Subselective preoperative embolization for meningiomas. A radiological and pathological assessment, 506
Successful radical removal of an intracranial meningioma in 1835 by Professor Pecchioli of Siena, 47
Ultrastructural study of the formation of psammoma bodies in fibroblastic meningioma, 512
Meningocele
Primary cutaneous extravertebral meningioma. Case report, 1097
Repair of myelomeningocele. Letter, 1117
Metabolism
Alteration of somatosensory evoked potentials in response to global ischemia, 490
Cerebral circulation and metabolism, 883
The contribution of brain injury to the overall injury severity of brain-injured patients, 697
The metabolic response to severe head injury, 687
Nutrition and the neurosurgical patient, 219
Nutritional support in acute head injuries. Letters, 1334
Metastasis
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089
Disseminated hematogenous metastases from a pineal germinoma in an infant. Case report, 835

Multiple intracranial metastases of malignant melanoma with long-term survival. Case report, 621
Neoplastic cerebral aneurysm from lung cancer. Case report, 640
Prostate carcinoma presenting as intracranial hemorrhage. Case report, 414
Methohexital
Comparison of sodium thiopental and methohexital for high-dose barbiturate anesthesia, 602
Methylprednisolone
Megadose corticosteroid therapy following experimental traumatic spinal injury, 712
Response of chronic experimental cerebral vasospasm to methylprednisolone and dexamethasone, 923
Microglioma
Primary cerebral lymphoma: the "ghost tumor." Case report, 174
Microsurgery
Cerebellopontine angle meningiomas. Microsurgical excision and follow-up results, 500
Microvascular patch technique with and without Silastic T-tube bypass, 287
Transparent optical neurosurgical instruments. Technical note, 208
The use of greater omentum vascularized free flaps for neurosurgical disorders requiring reconstruction, 305
Use of the argon surgical laser in neurosurgery, 523
Microvascular decompression
Observations on synkinesis in patients with hemifacial spasm. Effect of microvascular decompression and etiological considerations, 821
Microvascular reconstruction
Microsurgical anatomy of the recurrent artery of Heubner, 130
Middle cerebral artery
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Beneficial effects of induced hypertension on experimental stroke in awake monkeys, 151
Indications for surgical intervention in middle cerebral artery obstruction, 296
Naloxone and focal cerebral ischemia. Letters, 1328
Middle fossa
Dural involvement in sinus histiocytosis with massive lymphadenopathy. Case report, 850
Middle meningeal artery
Traumatic middle meningeal arteriovenous fistula caused by three-point skull fixation. Case report, 853
Missile wound
The correlation between surgical and CT estimates of brain damage following missile wounds, 947
Monoclonal antibody
Mononuclear lymphoid populations infiltrating the microenvironment of primary CNS tumors. Characterization of cell subsets with monoclonal antibodies, 1138
Mononeuritis multiplex
Diabetic polyradiculopathy simulating lumbar disc disease. Report of four cases, 183
Moyamoya disease
Does moyamoya disease cause subarachnoid hemorrhage? Review of 54 cases with intracranial hemorrhage confirmed by computerized tomography, 348
Multiple arteriovenous malformations
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Mycotic aneurysm
Bacterial aneurysms of the intracavernous carotid artery, 1236
Myelography
β-Endorphin-like immunoreactivity increases in human lumbar cerebrospinal fluid following routine metrizamide myelography, 800
Myelomeningocele
Repair of myelomeningocele. Letter, 1117
Myelopathy
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Tuberculous meningitis presenting as an obstructive myelopathy. Case report, 196
Vertebral trephine: a new instrument for anterior cervical fusion. Technical note, 1315
Naloxone
Naloxone and focal cerebral ischemia. Letters, 1328
Natriuresis
Hyponatremia and natriuresis following subarachnoid hemorrhage in a monkey model, 233
Nd:YAG laser
Lasers in neurological surgery. Letters, 872
The Nd:YAG laser in neurosurgery. Part 1. Laboratory investigations: dose-related biological response of neural tissue, 531
The Nd:YAG laser in neurosurgery. Part 2. Clinical studies: an adjunctive measure for hemostasis in resection of arteriovenous malformations, 540
Neck injury, *see* Cervical spine
Nelson's syndrome
Diagnosis of an "isodense" pituitary microadenoma by dynamic CT scanning. Case report, 424
Neomembrane
Recurrent subarachnoid bleeding in association with dural substitute. Report of three cases, 408
An unusual complication of Dura Film as a dural substitute. Report of two cases, 1076
Neonate
Dysplastic gangliocytoma of cerebellum in a newborn. Case report, 845
Intraventricular hemorrhage in the premature rabbit pup. Limitations of this animal model, 1243
Posthemorrhagic hydrocephalus. Low incidence in very low birth weight neonates with intraventricular hemorrhage, 343
Neoplastic aneurysm
Neoplastic cerebral aneurysm from lung cancer. Case report, 640
Nerve allograft
Survival of nerve allografts in sensitized rats treated with cyclosporin A, 828
Nerve compression
Anterior inferior cerebellar artery aneurysms. Letters, 1115
Spinal cord compression by an osteochondroma in a patient with multiple osteochondromatosis. Case report, 420
Nerve injury
Phenoxybenzamine in the treatment of causalgia. Report of 40 cases, 1263
Nerve regeneration
Survival of nerve allografts in sensitized rats treated with cyclosporin A, 828
Nerve root
Diabetic polyradiculopathy simulating lumbar disc disease. Report of four cases, 183
Intraradicular herniated lumbar disc. Case report, 858
Lumbar nerve root compression by synovial cysts of the ligamentum flavum. Report of four cases, 617
Nervous system tumor
Estrogen and progesterone receptors in meningiomas, 985

Neuroanesthesia
Some inquiries in neuroanesthesia and neurological supportive care, 673
Neurochemistry
β-Endorphin-like immunoreactivity increases in human lumbar cerebrospinal fluid following routine metrizamide myelography, 800
Estrogen and progesterone receptors in meningiomas, 985
Neurofibromatosis
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089
Neurofilament protein
Immunohistochemistry of central nervous system tumors. Its contributions to neurosurgical diagnosis, 1121
Neurothelium
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Neurotransmitters
Nutrition and the neurosurgical patient, 219
Nimodipine
Evaluation of the calcium channel antagonist nimodipine in experimental spinal cord ischemia, 796
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 1: Clinical and radiological findings, 1167
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 2: Pathological findings, 1176
Nitrogen balance
The metabolic response to severe head injury, 687
Nutrition
The metabolic response to severe head injury, 687
Nutrition and the neurosurgical patient, 219
Nutritional support in acute head injuries. Letters, 1334
Parenteral nutrition in head injury. Letters, 874

Obesity
Changes in food intake with electrical stimulation of the ventromedial hypothalamus in dogs, 1253
Occipitocervical fixation device
New steel device for occipitocervical fixation. Technical note, 1104
Occlusion
Vertebrobasilar occlusion therapy of giant aneurysms. Significance of angiographic morphology of the posterior communicating arteries, 560
Oligodendroblastoma
Primary cerebral neuroblastoma. Letters, 1116
Oligodendroglioma
Familial oligodendroglioma. Case report, 848
Omental free flap
The use of greater omentum vascularized free flaps for neurosurgical disorders requiring reconstruction, 305
Ophthalmic artery
Pulsating unilateral exophthalmos due to traumatic aneurysm of the intraorbital ophthalmic artery. Case report, 630
Opiates
β-Endorphin-like immunoreactivity increases in human lumbar cerebrospinal fluid following routine metrizamide myelography, 800
Optic canal
Cavernous hemangioma of the optic canal. Report of two cases, 838
Surgical approaches to the orbit. Indications and techniques, 1226
Orbital pseudotumor
Intracranial extension of inflammatory pseudotumor of the orbit. Case report, 625
Orbital tumor
Cavernous hemangioma of the optic canal. Report of two cases, 838
Surgical approaches to the orbit. Indications and techniques, 1226
Orbital wound
Vascular lesions due to transcranial stab wounds, 42
Osmotic agent
Osmotic agents and intracranial pressure. Letters, 1114
Osteomyelitis
Intracranial actinomycoma with osteomyelitis simulating meningioma. Case report, 204
Outcome
Age and the outcome from aneurysm surgery. Letters, 215
Cerebrospinal fluid shunt infection. Influences on initial management and subsequent outcome, 1014
Early aneurysm operation and outcome in two remote Scandinavian populations, 1160
Long-term follow-up review of cases of Parkinson's disease after unilateral or bilateral thalamotomy, 1033
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
Neurological outcome correlated with spinal evoked potentials in a spinal cord ischemia model, 786
Outcome 1 year after SAH from cerebral aneurysm. Management morbidity, mortality, and functional status in 112 consecutive good-risk patients, 909
Outcome after head injury. Letters, 1331

Pain
β-Endorphin-like immunoreactivity increases in human lumbar cerebrospinal fluid following routine metrizamide myelography, 800
Causalgic pain relieved by prolonged procaine amide sympathetic blockade. Case report, 1095
Dorsal root entry zone lesions for the treatment of post-herpetic neuralgia, 1258
Experimental sensory ganglionectomy by way of suicide axoplasmic transport, 108
Laser effect on spinal cord. Letter, 870
Laser-induced DREZ lesions. Letters, 870
Phenoxybenzamine in the treatment of causalgia. Report of 40 cases, 1263
Paraganglioma
Embolization of carotid body tumors. Letter, 1116
Paraplegia
Effect of intravenous lidocaine on experimental spinal cord injury, 595
Neurological outcome correlated with spinal evoked potentials in a spinal cord ischemia model, 786
Tuberculous meningitis presenting as an obstructive myelopathy. Case report, 196
Parasite
Intracranial sparganosis: an uncommon infection. Case report, 1282
Parenteral nutrition
Parenteral nutrition in head injury. Letters, 874
Parkinson's disease
Long-term follow-up review of cases of Parkinson's disease after unilateral or bilateral thalamotomy, 1033
Pathophysiology
Dural arteriovenous malformations of the spine. Clinical features and surgical results in 55 cases, 238
Pecchioli, Zanobi
Successful radical removal of an intracranial meningioma in 1835 by Professor Pecchioli of Siena, 47

Index

Percutaneous surgery
  Percutaneous insertion of peritoneal shunt catheters with use of the Veress needle. Technical note, 444
Perfusion lung scanning
  Pulmonary embolism in neurosurgical patients: diagnosis and treatment, 972
Phenoxybenzamine
  Phenoxybenzamine in the treatment of causalgia. Report of 40 cases, 1263
Phenytoin
  Effect of phenytoin and corticosteroids on seizures and lipid peroxidation in experimental posttraumatic epilepsy, 467
  Prophylactic phenytoin. Letter, 877
Phospholipid degradation
  Cerebral circulation and metabolism, 883
Pial vein
  Dural arteriovenous malformation in the posterior fossa associated with intracerebellar hematoma. Case report, 1067
Pineal tumor
  Disseminated hematogenous metastases from a pineal germinoma in an infant. Case report, 835
Pituitary cyst
  Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Pituitary tumor
  Clinical and pathological effects of bromocriptine on prolactin-secreting and other pituitary tumors, 1
  Diagnosis of an "isodense" pituitary microadenoma by dynamic CT scanning. Case report, 424
Plasma cell
  Plasma-cell granuloma of the fourth ventricle. Case report, 1291
Plateau waves
  Origin and evolution of plateau waves. Experimental observations and a theoretical model, 312
Pneumocephalus
  Epidermoid tumor presenting as tension pneumocephalus. Case report, 1312
  Some inquiries in neuroanesthesia and neurological supportive care, 673
Polyradiculopathy
  Diabetic polyradiculopathy simulating lumbar disc disease. Report of four cases, 183
Posterior cerebral artery
  Anomalies of the posterior communicating artery and their potential clinical significance, 572
Posterior communicating artery
  Anomalies of the posterior communicating artery and their potential clinical significance, 572
  Vertebrobasilar occlusion therapy of giant aneurysms. Significance of angiographic morphology of the posterior communicating arteries, 560
Posterior fossa
  Dural arteriovenous malformation in the posterior fossa associated with intracerebellar hematoma. Case report, 1067
  Surgical treatment of tentorial arteriovenous malformations draining into the subarachnoid space. Report of four cases, 1059
  Telemetric ICP monitoring after surgery for posterior fossa and third ventricular tumors. Technical note, 649
Postoperative complication
  Cerebral arteriovenous malformations. Indications for and results of surgery, and the role of intravascular techniques, 14
  The correlation between surgical and CT estimates of brain damage following missile wounds, 947
  Recurrent subarachnoid bleeding in association with dural substitute. Report of three cases, 408
Postural fluctuation
  Postural fluctuation of hemifacial spasm. Case report, 190
Premature rabbit model
  Intraventricular hemorrhage in the premature rabbit pup. Limitations of this animal model, 1243
Prenatal treatment
  Kaolin-induced congenital hydrocephalus *in utero* in fetal lambs and rhesus monkeys, 115
Pressure gradient
  Cortical artery aneurysm formation after extracranial to intracranial bypass surgery. Case report, 636
Preterm infant
  Posthemorrhagic hydrocephalus. Low incidence in very low birth weight neonates with intraventricular hemorrhage, 343
Procaine amide
  Causalgic pain relieved by prolonged procaine amide sympathetic blockade. Case report, 1095
Progesterone
  Estrogen and progesterone receptors in meningiomas, 985
Prognosis
  Somatosensory evoked potential monitoring during the management of aneurysmal SAH, 264
Prolactinoma
  Clinical and pathological effects of bromocriptine on prolactin-secreting and other pituitary tumors, 1
Prophylaxis
  Antibiotic prophylaxis in neurosurgery. A randomized controlled trial, 724
Proptosis
  Cavernous hemangioma of the optic canal. Report of two cases, 838
Prostacyclin
  Systemic and cerebral effects of prostacyclin-induced arterial hypotension in the dog, 1201
Prostate tumor
  Prostate carcinoma presenting as intracranial hemorrhage. Case report, 414
Psammoma body
  Ultrastructural study of the formation of psammoma bodies in fibroblastic meningioma, 512
Pseudotumor cerebri
  Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Pulmonary embolism
  Progressive posttraumatic superior sagittal sinus thrombosis complicated by pulmonary embolism. Case report, 179
  Pulmonary embolism in neurosurgical patients: diagnosis and treatment, 972
Pulmonary metabolism
  Comparative effects of barbiturate or enflurane anesthesia with induced hypotension on intrapulmonary shunting, 248
  Pulmonary hypertension, pulmonary edema, and decreased pulmonary compliance produced by increased ICP in cats, 1207

Quadriplegia
  Intradural extramedullary tuberculoma of the cervical spine. Case report, 200
Quality of survival
  Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52

Radiation necrosis
  Treatment of delayed radiation necrosis of the brain. A clinical observation, 589
Radiation therapy
  Acute nonlymphocytic leukemia following treatment of malignant glioma. Report of two cases, 1287

Brachytherapy of recurrent malignant brain tumors with removable high-activity iodine-125 sources, 61
Cerebellar medulloblastoma in adults, 994
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
Radiation therapy for ependymomas. Letters, 658
Risk of CT scanning for epidural hematomas. Letters, 1112
Single-beam radiotherapy knife. A practical theoretical model, 814
Supratentorial malignant gliomas of childhood. Results of treatment with radiation therapy and chemotherapy, 495
Radiculopathy
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69
Radionuclide
Radionuclide estimation of cerebrospinal fluid shunt flow. Evidence supporting an alternative theoretical model, 361
Rathke's cleft cyst
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Reconstructive surgery
The use of greater omentum vascularized free flaps for neurosurgical disorders requiring reconstruction, 305
Recurrent tumor
Cerebellar medulloblastoma in adults, 994
Reticulum-cell sarcoma
Primary cerebral lymphoma: the "ghost tumor." Case report, 174
Revascularization, *see* Anastomosis
Rhizotomy
Experimental sensory ganglionectomy by way of suicide axoplasmic transport, 108
Richmond screw
Modification of the Richmond subarachnoid screw for monitoring intracranial pressure. Technical note, 1102
Rifampin
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354

Sagittal sinus
Aminergic innervation of cerebral veins. Histochemical comparison with extracranial veins, 140
Progressive posttraumatic superior sagittal sinus thrombosis complicated by pulmonary embolism. Case report, 179
Scalp defect
The use of greater omentum vascularized free flaps for neurosurgical disorders requiring reconstruction, 305
Scandinavian populations
Early aneurysm operation and outcome in two remote Scandinavian populations, 1160
Scanning electron microscopy
Morphological alterations of the degenerated lumbar disc following chemonucleolysis with chymopapain, 518
Schwann cell
Survival of nerve allografts in sensitized rats treated with cyclosporin A, 828
Schwannoma
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089
Jugular foramen schwannomas, 1045
Screw fixation
Treatment of pedicular fractures of the axis. A clinical study and screw fixation technique, 88
Seizure
Arteriovenous malformations of the medial cerebral hemisphere and the limbic system, 23
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
Sella turcica
Intrasellar hydatid cyst. Case report, 647
Shunt
CSF formation and absorption. Letters, 1328
Indwelling double-balloon shunt for carotid endarterectomy. Technical note, 861
Kaolin-induced congenital hydrocephalus *in utero* in fetal lambs and rhesus monkeys, 115
Percutaneous insertion of peritoneal shunt catheters with use of the Veress needle. Technical note, 444
Radionuclide estimation of cerebrospinal fluid shunt flow. Evidence supporting an alternative theoretical model, 361
Telemetric ICP monitoring after surgery for posterior fossa and third ventricular tumors. Technical note, 649
Shunt infection
Cerebrospinal fluid shunt infection. Influences on initial management and subsequent outcome, 1014
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Silastic tube
Microvascular patch technique with and without Silastic T-tube bypass, 287
Silver carbonate stain
Primary cerebral neuroblastoma. Letters, 1116
Sinus histiocytosis
Dural involvement in sinus histiocytosis with massive lymphadenopathy. Case report, 850
Skull
Expanding cranial defects. Letters, 1113
Holographic investigation of the impact response of human heads, 718
Vascular lesions due to transcranial stab wounds, 42
Skull fracture
Cortical arteriovenous fistula associated with skull fracture. Case report, 192
Skull growth
Roentgen stereophotogrammetric analysis of neurocranial suturectomy in rabbits, 158
Roentgen stereophotogrammetric analysis of restricted periods of neurocranial suture immobilization in rabbits, 166
Smooth-muscle constrictor
CSF smooth-muscle constrictor activity associated with cerebral vasospasm and mortality in SAH patients, 927
Sodium
Hyponatremia and natriuresis following subarachnoid hemorrhage in a monkey model, 233
Sodium pump
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Somatosensory evoked potentials, *see* Evoked potentials
Sparganum
Intracranial sparganosis: an uncommon infection. Case report, 1282
Spinal anesthesia
Failure of tetracaine to reverse spinal cord injury in the cat, 1269
Spinal cord
Intramedullary endodermal cysts. Letter, 877
Intraoperative ultrasonic evaluation of spinal cord motion, 707
Laser effect on spinal cord. Letter, 870
Laser-induced DREZ lesions. Letters, 870
Neurological outcome correlated with spinal evoked potentials in a spinal cord ischemia model, 786
Repair of spinal dural defects. An experimental study, 1022
Somatosensory evoked potentials during spinal angiography and therapeutic transvascular embolization, 777
Spinal cord compression
Calcium pyrophosphate dihydrate deposits in the cervical ligamenta flava causing myeloradiculopathy, 69

Index

Cord compression by cervical disc. Letters, 1112
Spinal cord compression by an osteochondroma in a patient with multiple osteochondromatosis. Case report, 420
Spinal cord injury
Effect of intravenous lidocaine on experimental spinal cord injury, 595
Failure of tetracaine to reverse spinal cord injury in the cat, 1269
Laser effect on spinal cord. Letter, 1117
Spinal cord monitoring
Spinal cord monitoring during surgery by direct recording of somatosensory evoked potentials. Technical note, 440
Spinal cord stimulation
Percutaneous flexible bipolar epidural neuroelectrode for spinal cord stimulation. Technical note, 1317
Spinal cord tumor
Harrington rod stabilization for pathological fractures of the spine, 282
Spinal fracture
New steel device for occipitocervical fixation. Technical note, 1104
Treatment of pedicular fractures of the axis. A clinical study and screw fixation technique, 88
Spinal fusion
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Spinal injury
Delayed onset of Lhermitte's sign following head and/or neck injuries. Report of four cases, 609
Evaluation of the calcium channel antagonist nimodipine in experimental spinal cord ischemia, 796
Hangman's fracture with complete dislocation of C-2 on C-3. Case report, 633
Megadose corticosteroid therapy following experimental traumatic spinal injury, 712
Pediatric neck injuries. A clinical study, 700
Spinal arachnoid cyst with unusual presentation. Case report, 613
Spinal nerve root
Von Hippel-Lindau syndrome with microscopic hemangioblastomas of the spinal nerve roots. Case report, 1279
Spinal tumor
Intraoperative ultrasonic evaluation of spinal cord motion, 707
Use of the argon surgical laser in neurosurgery, 523
Spinal vein
Dural arteriovenous malformations of the spine. Clinical features and surgical results in 55 cases, 238
Spirometra
Intracranial sparganosis: an uncommon infection. Case report, 1282
Spondylosis
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Intraoperative ultrasonic evaluation of spinal cord motion, 707
Lumbar nerve root compression by synovial cysts of the ligamentum flavum. Report of four cases, 617
Vertebral trephine: a new instrument for anterior cervical fusion. Technical note, 1315
Spontaneous regression
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Primary cerebral lymphoma: the "ghost tumor." Case report, 174
Squamous cell carcinoma
Intracranial squamous cell carcinomas. Letters, 452
Stab wound
Vascular lesions due to transcranial stab wounds, 42
Staphylococcus aureus
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Staphylococcus epidermidis
Experimental anaerobic brain abscess. Computerized tomographic and neuropathological correlations, 1148
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Stellate ganglion
Causalgic pain relieved by prolonged procaine amide sympathetic blockade. Case report, 1095
Stereotaxy
Brachytherapy of recurrent malignant brain tumors with removable high-activity iodine-125 sources, 61
Changes in food intake with electrical stimulation of the ventromedial hypothalamus in dogs, 1253
Long-term follow-up review of cases of Parkinson's disease after unilateral or bilateral thalamotomy, 1033
Surgical considerations in treatment of intraventricular cysticercosis. An analysis of 45 cases, 400
Subarachnoid hemorrhage
Causes of acute deterioration in patients with a ruptured intracranial aneurysm. A prospective study with serial CT scanning, 935
CSF dynamics in patients with subarachnoid and/or intraventricular hemorrhage, 940
CSF smooth-muscle constrictor activity associated with cerebral vasospasm and mortality in SAH patients, 927
Does moyamoya disease cause subarachnoid hemorrhage? Review of 54 cases with intracranial hemorrhage confirmed by computerized tomography, 348
Evaluation of cerebrovascular spasm with transcranial Doppler ultrasound, 37
Hyponatremia and natriuresis following subarachnoid hemorrhage in a monkey model, 233
Musical murmurs in human cerebral arteries after subarachnoid hemorrhage, 32
Nature of the vasoactive substance in CSF from patients with subarachnoid hemorrhage, 1186
Outcome 1 year after SAH from cerebral aneurysm. Management morbidity, mortality, and functional status in 112 consecutive good-risk patients, 909
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 1: Clinical and radiological findings, 1167
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 2: Pathological findings, 1176
Recurrent subarachnoid bleeding in association with dural substitute. Report of three cases, 408
Response of chronic experimental cerebral vasospasm to methylprednisolone and dexamethasone, 923
Serial measurement of regional cerebral blood flow in patients with SAH using ^{133}Xe inhalation and emission computerized tomography, 916
Significance of contrast enhancement in cranial computerized tomography after subarachnoid hemorrhage, 335
Somatosensory evoked potential monitoring during the management of aneurysmal SAH, 264
Subarachnoid hemorrhage from intracranial dissecting aneurysm, 325
Subarachnoid hemorrhage in childhood and adolescence, 1163
Surgical treatment of tentorial arteriovenous malformations draining into the subarachnoid space. Report of four cases, 1059
The value of computerized tomography in aneurysmal subarachnoid hemorrhage. The concept of the CT score, 763
Subarachnoid pressure
Assessment of Leeds device for monitoring intracranial pressure, 123
Subarachnoid space
Assessment of Leeds device for monitoring intracranial pressure, 123
Subdural hematoma
Interhemispheric subdural hematoma. Case report, 1300
Prostate carcinoma presenting as intracranial hemorrhage. Case report, 414

An unusual complication of Dura Film as a dural substitute. Report of two cases, 1076
Surgical approach
Arteriovenous malformations of the medial cerebral hemisphere and the limbic system, 23
Cerebral arteriovenous malformations. Indications for and results of surgery, and the role of intravascular techniques, 14
Cervical spondylotic myelopathy treated by single-stage multilevel anterior decompression. A prospective study, 81
Transoral surgery for craniocervical space-occupying processes, 276
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Surgical position
Some inquiries in neuroanesthesia and neurological supportive care, 673
Survival time, *see also* Outcome
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
Suture immobilization
Roentgen stereophotogrammetric analysis of restricted periods of neurocranial suture immobilization in rabbits, 166
Suturectomy
Roentgen stereophotogrammetric analysis of neurocranial suturectomy in rabbits, 158
Sylvian fissure
Arachnoid cysts of the Sylvian fissure. Evidence of fluid secretion, 803
Sympathectomy
Causalgic pain relieved by prolonged procaine amide sympathetic blockade. Case report, 1095
Phenoxybenzamine in the treatment of causalgia. Report of 40 cases, 1263
Synkinesis
Observations on synkinesis in patients with hemifacial spasm. Effect of microvascular decompression and etiological considerations, 821
Synovial cyst
Lumbar nerve root compression by synovial cysts of the ligamentum flavum. Report of four cases, 617

Target volume
Single-beam radiotherapy knife. A practical theoretical model, 814
Telemetry
Telemetric ICP monitoring after surgery for posterior fossa and third ventricular tumors. Technical note, 649
Temporal lobe
Arteriovenous malformations of the medial cerebral hemisphere and the limbic system, 23
Surgical management of epilepsy using epidural recordings to localize the seizure focus. Review of 100 cases, 457
Temporary arterial occlusion
Booster clips for giant and thick-based aneurysms, 751
Tension pneumocephalus
Epidermoid tumor presenting as tension pneumocephalus. Case report, 1312
Tentorium
Microsurgical anatomy of the region of the tentorial incisura, 365
Surgical treatment of tentorial arteriovenous malformations draining into the subarachnoid space. Report of four cases, 1059
Thalamotomy
Long-term follow-up review of cases of Parkinson's disease after unilateral or bilateral thalamotomy, 1033
Thiopental
Comparison of sodium thiopental and methohexital for high-dose barbiturate anesthesia, 602
Thoracic spine
Spinal arachnoid cyst with unusual presentation. Case report, 613
Thrombin
Use of cryoprecipitate coagulum to control tumor-bed bleeding. Case report, 1099
Thrombosed aneurysm
Acutely thrombosed aneurysm of the middle cerebral artery presenting as intracranial hemorrhage in a 3-year-old child. Case report, 1303
Transient neurological deficits secondary to saccular vertebrobasilar aneurysms. Report of two cases, 410
Thrombosis
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Indications for surgical intervention in middle cerebral artery obstruction, 296
Protective effect of lidocaine in acute cerebral ischemia induced by air embolism, 257
Timing of surgery
Early aneurysm operation and outcome in two remote Scandinavian populations, 1160
Tissue culture
Does the CO_2 laser spread viable brain-tumor cells outside the surgical field? 819
Transient ischemic attack
Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Transient neurological deficits secondary to saccular vertebrobasilar aneurysms. Report of two cases, 410
Transoral surgery
Transoral surgery for craniocervical space-occupying processes, 276
Transparent surgical instruments
Transparent optical neurosurgical instruments. Technical note, 208
Transsphenoidal surgery
Clinical and pathological effects of bromocriptine on prolactin-secreting and other pituitary tumors, 1
Transsphenoidal treatment of non-neoplastic intrasellar cysts. A report of 38 cases, 8
Traumatic aneurysm
Pulsating unilateral exophthalmos due to traumatic aneurysm of the intraorbital ophthalmic artery. Case report, 630
Trigeminal nerve
Experimental sensory ganglionectomy by way of suicide axoplasmic transport, 108
Trigeminal neuralgia
Success of microvascular decompression with and without prior surgical therapy for trigeminal neuralgia, 104
Trimethoprim
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Tromethamine
Experimental brain injury: successful therapy with the weak base, tromethamine. With an overview of CNS acidosis, 961
Tube feeding
The metabolic response to severe head injury, 687
Tuberculoma
Intradural extramedullary tuberculoma of the cervical spine. Case report, 200
Tuberculosis
Intradural extramedullary tuberculoma of the cervical spine. Case report, 200
Tuberculous meningitis presenting as an obstructive myelopathy. Case report, 196
Tumor cell viability
Does the CO_2 laser spread viable brain-tumor cells outside the surgical field? 819

Index

Tumor excision
Use of the argon surgical laser in neurosurgery, 523
Tumor model
Blood-brain barrier disruption in immature Fischer 344 rats, 743
Intracerebral transplantation of a human glioma line in immunosuppressed rats, 582

Ultrasound
Cottonoid as an acoustical marker for intraoperative ultrasound scanning. Technical note, 438
Evaluation of cerebrovascular spasm with transcranial Doppler ultrasound, 37
Intraoperative ultrasonic evaluation of spinal cord motion, 707
Kaolin-induced congenital hydrocephalus *in utero* in fetal lambs and rhesus monkeys, 115
Musical murmurs in human cerebral arteries after subarachnoid hemorrhage, 32
Ultrastructural study
A randomized placebo-controlled double-blind trial of nimodipine after SAH in monkeys. Part 2: Pathological findings, 1176
Ultrastructural study of the formation of psammoma bodies in fibroblastic meningioma, 512
Uncal herniation
Acute intracranial hypertension and brain-stem blood flow. An experimental study, 566

Vancomycin
Antibiotic prophylaxis in neurosurgery. A randomized controlled trial, 724
Treatment of CSF shunt infections with intrashunt plus oral antibiotic therapy, 354
Varix
Giant aneurysm arising from a single arteriovenous fistula in a child. Case report, 1085
Vascular compression
Postural fluctuation of hemifacial spasm. Case report, 190
Vasopressin
Hyponatremia and natriuresis following subarachnoid hemorrhage in a monkey model, 233
Vasospasm
CSF smooth-muscle constrictor activity associated with cerebral vasospasm and mortality in SAH patients, 927
Evaluation of cerebrovascular spasm with transcranial Doppler ultrasound, 37
Nature of the vasoactive substance in CSF from patients with subarachnoid hemorrhage, 1186
Response of chronic experimental cerebral vasospasm to methylprednisolone and dexamethasone, 923
Serial measurement of regional cerebral blood flow in patients with SAH using ^{133}Xe inhalation and emission computerized tomography, 916
The value of computerized tomography in aneurysmal subarachnoid hemorrhage. The concept of the CT score, 763
Vein
Aminergic innervation of cerebral veins. Histochemical comparison with extracranial veins, 140
Dural arteriovenous malformation in the posterior fossa associated with intracerebellar hematoma. Case report, 1067
Dural arteriovenous malformations of the spine. Clinical features and surgical results in 55 cases, 238
Morbidity, mortality, and quality of life following surgery for intracranial meningiomas. A retrospective study in 257 cases, 52
Surgical treatment of tentorial arteriovenous malformations draining into the subarachnoid space. Report of four cases, 1059
Vein graft
Carotid to distal vertebral artery bypass for vertebrobasilar ischemia. Case report, 187
Vein of Galen
Giant aneurysm arising from a single arteriovenous fistula in a child. Case report, 1085
Venography
Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Venous sinus
Angiographic disappearance of multiple dural arteriovenous malformations. Case report, 1275
Intracranial venous sinus hypertension: cause or consequence of hydrocephalus in infants? 727
Ventilation
Effect of high-frequency ventilation versus conventional mechanical ventilation on ICP in head-injured dogs, 1214
Ventricular fluid pressure
Brain tissue pressure: physiological observations in anesthetized cats, 1219
Veress needle
Percutaneous insertion of peritoneal shunt catheters with use of the Veress needle. Technical note, 444
Vertebral artery
Carotid to distal vertebral artery bypass for vertebrobasilar ischemia. Case report, 187
Vertebrobasilar artery
Carotid to distal vertebral artery bypass for vertebrobasilar ischemia. Case report, 187
Characteristics and use of ultra-long aneurysm clips, 145
A new model of transient hindbrain ischemia in gerbils, 1054
Postural fluctuation of hemifacial spasm. Case report, 190
Subarachnoid hemorrhage from intracranial dissecting aneurysm, 325
Vertebrobasilar occlusion therapy of giant aneurysms. Significance of angiographic morphology of the posterior communicating arteries, 560
Vessel suture
Microvascular patch technique with and without Silastic T-tube bypass, 287
Von Hippel-Lindau syndrome
Von Hippel-Lindau syndrome with microscopic hemangioblastomas of the spinal nerve roots. Case report, 1279
Von Recklinghausen's disease
Catecholamine-secreting malignant schwannoma in a patient with multiple intracranial aneurysms. Case report, 1089

War wound
The correlation between surgical and CT estimates of brain damage following missile wounds, 947
Warfarin
Treatment of delayed radiation necrosis of the brain. A clinical observation, 589

Wound infection
Antibiotic prophylaxis in neurosurgery. A randomized controlled trial, 724

Xenon-133
Hemodynamically significant stenosis of the internal carotid artery treated with endarterectomy. Case report, 1070
Serial measurement of regional cerebral blood flow in patients with SAH using ^{133}Xe inhalation and emission computerized tomography, 916
